RADIO IS BANNED FOR CURRENT YEAR

There will be no radio at Smith College this year, it was announced in House of Representatives last night. Marjorie Boselly, 1948, chairman of the Radio Committee, informed the House that Mr. King's office stated that there would be no possibility for installation this year, and that no promise could be made for a radio in the future.

The House of Representatives gave a unanimous vote of confidence to the Radio Committee, which will work this year to gather all available information about college radios and will attend the regional conferences of the Inter-collegiate Broadcasting System. In this way it hopes to be completely prepared to install a college radio should the opportunity arise.

At a meeting held Wednesday, the House decided that the second newspaper will definitely be included in the Blanket Tax budget this year. Both SCAN and the new newspaper will be off Student Finance Plan next year.

Due to the cancellation of the radio, this year's Blanket Tax will be $7.10. The budget for the Tax was approved, and collections will be due next week.

Professors Accentuate UN Controversy In Hot Debate

Can the United Nations be an effective world government?

"The UN is still our best hope for peace and security," stated Otto Kraushaar, Professor of Philosophy, in taking the affirmative on this question in a debate held last Wednesday evening.

"The UN is the only function today that is working at the problems arising from the different ideologies. Whatever we may think of its weaknesses, it requires the burden of proof to demonstrate that some other organization can take its place," stated Mr. Kraushaar. He went on to point out the shortcomings of proposed alternatives to the UN, such as the Trans-Atlantic Union, and some of the respects in which the UN has the means to make the transition to world government. These were: (1) the possibility of greater representation of the people of the world rather than the governments on the committees; (2) the possibility of greater jurisdiction by the International Court of Justice; (3) the possibility of propos-
